

REPORT
ACADEMIC EXTENSION LECTURE ON CHARACTERISTICS OF JESUIT
EDUCATION:
2021-2022

As a part of the Co-curricular seminar lectures, the Department of Sociology was allotted the topic of “Characteristics of Jesuit Education”. This served as a golden opportunity for the audience to know the insights of this noble and far-sighted system which has deep-rooted impacts on the lives of people all across the globe. It was organized online on 9th November 2021 from 3 pm to 5 pm. Respected Fr. Principal, Fr. Vice Principal, and other respected Dignitaries, all the faculties of the college, many students of the college and other interested candidates or past students attended the event through Google Meet.

The enlightening words of our respected Father Principal were highly thought-provoking. The faculty members of the department of Sociology put in a wonderful, collective and unique effort by bridging all language barriers and making the seminar a multilingual one. The sole aim was to spread the word of Jesuit Education among the masses without any linguistic restrictions. The various impactful characteristics of Jesuit Education were very beautifully conveyed to the audience.
