## Placements & Career Counseling Programmes

Career development is more than just deciding on a student's future and what job they want to get when they graduate. It really is a lifelong process, meaning that throughout life they will change, situations will change, and they will continually have to make career and life decisions. The goal of Career Counseling is to not only help them make the decisions they need to make now, but to give them the knowledge and skills they need to make future career and life decisions.

### List of so far programmes conducted for placement
