REPORT

Event Details:

- **Date:** October 18, 2022
- **Time:** 2:00 PM
- **Venue:** Geography Laboratory, St. Xavier's College, Burdwan
- **Event Focus:** Recognition of creative efforts towards environmental promotion and protection through recycling

Learning Objectives:

- Develop effective communication skills through presenting ideas creatively.
- Enhance teamwork and collaboration abilities through group projects.
- Foster problem-solving skills in designing and executing art from waste materials.

Learning Outcomes:

- Increased awareness of environmental issues and sustainable practices.
- Enhanced creativity and innovation in repurposing everyday items.
- Strengthened commitment to environmental stewardship among participants.

Soft Skill Development Outcome:

- **Communication:** Students practiced articulating their ideas clearly and persuasively.
- **Teamwork:** Collaborative efforts in creating artworks fostered teamwork and mutual respect.
- **Problem-Solving:** Overcoming challenges in material selection and design promoted critical thinking.
- **Creativity:** Turning waste into art showcased innovative thinking and creative expression.

WASTE TO WEALTH

From Waste to Wealth Showcase: Sustainable Innovations Exhibit based on recycled products

- **Creative Showcasing:** Students exhibited a diverse range of artworks crafted from everyday waste materials, including Chinese dolls, greeting cards, pen stands, flower vases, and more.
- **Environmental Awareness:** The event underscored the importance of recycling and waste management in protecting the environment, fostering a sense of responsibility among participants.
- **Student Engagement:** Participants actively engaged in hands-on activities, demonstrating their artistic talents and commitment to sustainability through practical application.
- **Learning through Collaboration:** Collaborative projects encouraged teamwork and communication skills, as students worked together to conceptualize and create their artworks.
- **Recognition of Efforts:** The event celebrated the creative efforts of students, acknowledging their contributions to promoting environmental awareness and conservation through innovative reuse of materials.
- **Impactful Display:** Visitors and attendees were impressed by the quality and creativity of the displayed artworks, highlighting the potential of waste materials in artistic expression and environmental advocacy.

Displayed Creations:

- Chinese dolls
- Greeting cards
- Boxes
- Pen stands
- Flower vases
- Minions
- Chalk stands
- Flower pots with paper flowers
- Electric lamps
- 3D shaped balls
- Wall hangings, and more

These highlights encapsulate the event's success in promoting both creative expression and environmental consciousness among the student community at St. Xavier's College, Burdwan.
