REPORT

Waste isn't waste until we waste it'- Will I am

The month of October unfurled the creative feeling in one and all. The Department of Geography was a witness to the myriads of activities that was conducted for the juniors as well as the seniors.

On the auspicious occasion of Sustainability Festival 2022, a vibrant programme was organised by our Department of Geography in association with Xaverian Society for Human Sustainability, for the students of our department in our college, focusing on the theme: **WASTE TO WEALTH**-symbolising recycling. This event was organized under the guidance of our respected Professors: Mr. Sourav Sengupta (Head of the Department), Dr. Susmita Bhowmick and Dr. Anuradha Mukherjee on 18 October 2022.

This event aimed to recognize the creative efforts towards promotion & protection of the environment & to create the awareness among the students about the importance of recycling of the wastes & keeping the environment clean & also to engage them in productive activities.

The whole Programme were a fusion of talent, imagination, creativity and alertness. All the Students participated in the programme with much enthusiasm. The students left everyone awe-struck as they presented their talent so immaculately and effortlessly. They were applauded for their superb performance.

A wide array of items such as Chinese dolls, greeting cards, boxes, Pen stand, flower vase, minions, chalk stand, flower pot with paper flowers, electric lamp, 3d shaped ball, wall hanging and many more had been prepared from the daily life waste materials by our talented students.

The students were really encouraged by the positive feedback they got from everyone present.

Our professors also decided that such initiatives would be taken up by our department more frequently to motivate the creative students and to help a noble cause.

Wealths created
